Summary

As an aspiring data analyst, I have hands-on experience in the entire data lifecycle, from collection to visualization, gained through academic projects. I am proficient in **Python** for data manipulation and analysis, and **SQL** for database querying and management. I excel at translating complex datasets into actionable insights, and I'm skilled in building clear, compelling data stories. My passion for problem-solving and continuous learning drives me to create high-quality, data-driven solutions that contribute to project success. I am a highly collaborative team player committed to delivering impactful results.
